

Timer specification

- 1.Interval time: 0.5-45 minutes, adjustable
- 2.Discharge time: 0.5-10 seconds, adjustable
- 3.Manual TEST switch: Micro switch
- 4.Supply voltage options:
DC12V,DC24V,AC36V,AC48V,AC110V,AC220V,AC380V, $\pm 10\%$, 50/60 Hz
- 5.Current consumption: 4mA maximum
- 6.Operating temperature: -20°C to 140°C
- 7.Environmental protection: **IP 65**, NEMA 4 when installed
- 8.Housing material: ABS plastic FR grade
- 9.Connection: DIN 43650A ISO 440/6952
- 10.Indicators: 1 LED (yellow) indicating ON; 1 LED (yellow) indicating OFF; Bright lights for clearer indication of operating
